

# Systems AND Options Guide

**Trajjet**  
Where water comes home.

# Choosing the right tub is as easy as 1-2-3.

## Step 1. Select Your Tub, Color and Trim

Choosing the right tub begins with selecting the desired shape (Rectangle, Oval, Corner), size and color. The physical dimensions (width, length and height) are commonly dictated by the space available in your bathroom. Refer to the Trajet "Escape to Tranquility" handout for individual tub images and sizes or visit [www.trajet.com](http://www.trajet.com).

Every Trajet tub is made of hi-gloss, easy-care, solid-surface acrylic that preserves color and resists stains.

### Standard Tub Colors

White     Biscuit

### Premium Tub Colors *(Call for availability of additional colors)*

Sandbar     Sterling Silver     Mexican Sand     Loganberry     Timberline     Navy     Black     Almond

### Trim Colors

Choose a trim color that complements your tub color or select a designer-metallic trim finish.

### Standard Trim Colors

White     Biscuit

### Premium Trim Colors

Chrome     Polished Brass     Brushed Nickel     Oil-Rubbed Bronze     Almond

## Step 2. Choose Your System

In addition to the Classic soaker, Trajet offers four versatile comfort systems tailor-made to create your ideal mode of relaxation. Simply select the system and configuration that will be your definition of tranquility.

	<b>PRODIGY</b>	<b>MERIDIAN</b>	<b>EVOLUTION TBM</b>	<b>TRANQUIL AIR</b>
<b>Chromotherapy Lighting</b>		Standard	Optional Upgrade	Optional Upgrade
<b>Pump</b>	7 AMP	9 AMP	13.5 AMP Heavy Duty Pump 99% Self Draining/Sanitizable Easy Access Cleaning Ports 30 to 60 Hydro-Ports Verafflow Manual 3 Speed Massage	High Performance 2 HP, Heated, Variable Speed Blower for Desired Intensity of Massage.
<b>GPM</b>	86 GPM	101 GPM		
<b>Controls/Pump Speed</b>	Manual On/Off	Manual Multi-Flow	<b>EVOLUTION 1</b> 14+ Hydro-Ports on each SIDE	Electronic Easy Touch Variable
<b>Back Jets</b> <i>(# of jets depends on model depth)</i>	1-2	1-3	<b>EVOLUTION 2</b> 14+ Hydro-Ports on each SIDE 4-6 Hydro-Ports on each FOOT 10 Hydro-Ports on BACK	16 Air Jets with Check Valves - Positioned on the bottom of the tub to allow pulsating bubbles to deliver the precise level of relaxation you desire.

<b>Jets Size</b>	3.2" Diameter	3.2" Diameter		Sixteen 1/8" Air Holes in Figure-8 Layout Surround the Bather
<b>Directional/Adjustable</b>	Adjustable	Adjustable		

## Step 3. Choose Your Options

Choose from world-class options and features that will make your Trajet tub a personalized therapeutic spa experience. Trajet integrates the most popular and healthful spa options to work seamlessly (and effortlessly) with your whirlpool system.

### Luxury Package

Select your options one by one or choose the convenience of the Luxury Package. Trajet combines three of the most popular options into one reasonably priced Luxury Package (see your sales associate for pricing). It includes the Ozonator, In-Line Heater and a Bath Pillow. The Luxury Package is available on any whirlpool system.

### Neck Pillow

Ergonomical, removable pillow adds convenience and comfort to your bathing experience. The pillow rests securely on the top rim of the tub.

### Chromotherapy

Enhance your bathing experience with vibrant and soothing Chromotherapy. Whether it's the refreshing green of springtime or the serenity of a clear, blue sky, the moods, attitudes, energies and well-being evoked by Chromotherapy enrich your whirlpool.

### Aromatherapy

Awaken your senses with the energy, relaxation, romance and tranquility of Aromatherapy. Aromatherapy is as effortless as selecting the mood that will kick-start your day or help you slip away to a well-deserved respite from the world.

### Ozonator

Automatically sanitizes the bathwater continuously as you bathe. Removes common chemicals such as chlorine, iron, and manganese that are found in your water system. Safe and gentle to use, and is 200 times more effective than household bleach.

### Grab Bars

Safety and style, molded of solid, high-quality acrylic. Available in solid colors or clear acrylic with hardware to match your trim color.  Clear  White  Biscuit  Almond  Chrome  Brushed Nickel  Oil-rubbed Bronze

### Optional Jet Package

Customize your Spa experience with optional jet faces. Package of 4 jet faces, interchange with any 3.2" jet throughout the whirlpool system.

# Installer Options/Amenities

Features, options and accessories for the professional installation of Trajet tubs.

## ○ Tub Skirts (Factory Installed)

An acrylic skirt completes the tub with a crisp, clean, sharp finished look. Eliminates the expense of tiling the front. Factory-Installed Skirts are custom designed for many of our 5 and 6-foot models. They are made from the same heavy-duty acrylic the tubs are molded from, with the same fiberglass backing. Factory installed skirts are attached before leaving the plant and ship as one unit with the tub. Factory installed skirts can be ordered with an access panel to allow access to the pump for servicing the unit as required by housing codes.

## ○ EZ-On Skirt (Field Installed)

EZ-On Skirts will fit any straight edge on a tub and again provide a clean, crisp, finished look. They are molded from the same heavy-duty acrylic, are shipped as a separate unit and are installed on the job site. *(EZ Skirt does not allow panel access)*

## ○ Tile Alignment Flange

A flange waterproofs the seal between the tub surface and surrounding wall in an alcove setting.

- An applied flange is adhered to the tub with double-sided tape and can be applied to any rectangular or corner unit.
- An integral tile flange is available on select models.
- Trajet's line of Innova tubs come with an integrated flange and skirt.

## ○ In-line Heater

An In-Line Heater will maintain the temperature of the water as it cycles through the whirlpool system. There are no adjustments necessary. After the whirlpool is filled with hot water the In-Line Heater will maintain 104° water temperature. To cool the water simply add cold water as desired. The heater is installed at the factory, sits on top of the pump, engages when the whirlpool system is turned on/off, and requires a separate GCFI.

## Trajet's TranquilAir System

*Recognized for the ability to relieve pain and improve the spirit, water therapy, also known as Balneotherapy, has been known for centuries. Until now, this incredible experience has been reserved for a select few and available only at luxury spas and resorts.*

*A Trajet whirlpool tub featuring the TranquilAir systems brings this luxurious experience to your home for enjoyment and relaxation whenever you feel the need to make that personal, extraordinary escape to tranquility. As a stand-alone system or the perfect enhancement to any of Trajet's whirlpool baths, TranquilAir takes bathing and relaxation to the next level.*

### Millions of Caressing Bubbles

The perfect mixture of three of our most basic needs: Air, Water, and Luxury. Trajet's TranquilAir system is the next generation of relaxation and invigoration. Millions of bubbles of heated air gently surround you from 16 perfectly placed air jets for a truly magnificent hydro-air massage.

The TranquilAir system's electronic control allows you to choose the speed and amount of pulsating bubbles to deliver precisely the level of relaxation or invigoration you desire. Trajets innovative engineering, expert craftsmanship and attention to detail make TranquilAir the perfect addition to virtually all Trajet tub models.

### Hygienic

The TranquilAir massage system ensures that hygiene is always a priority. Each jet has a check valve to prevent backflow in the air passage. The air system remains clean because no contaminated water can enter the system and stagnate there. For additional protection, twenty minutes after each use, the system initiates a one-minute drying cycle that dries out the jet valves, thereby ensuring a longer life and perfect hygiene.

As light as air. As smooth as water. That's the blend of relaxation and invigoration found in every TranquilAir tub from Trajet. Discover the style, innovation and craftsmanship that make Trajet the choice of those who understand the value of self-indulgence.

# Exclusive features on every Trajet tub.

*Designed, engineered, and crafted for a lifetime of enjoyment.*

*As you surround yourself in the most incredible home-whirlpool or TranquilAir bath experience possible, we're certain that you won't be thinking about the silent, invisible engineering and precision craftsmanship that makes your Trajet whirlpool the finest available anywhere. So, here are just a few of the features that make your Trajet even more reason to relax, indulge and enjoy.*

- 1. Hi-Gloss acrylic finish.** Rich colors stay like new with a durable, highly reflective, long-lasting finish. Easy care, resists stains, cracking and chipping
- 2. Two fill layers of hand-rolled fiberglass** provide superior adhesion, strength, and durability to assure a lifetime of enjoyment.
- 3. Heavy-Duty glassed-on base.** Top quality water-resistant base material is "wet-glassed" to the bottom of the tub for superior strength and durability.
- 4. Glassed-in bracing.** Trajet's innovative glassed-in bracing and bracket system provides additional structural integrity and superior rigidity.
- 5. Heavy-Duty PVC supply lines** maintain a high water velocity and constant flow volume. Supply lines are fully encased in Trajet's Constantemp® Foam Insulation to maintain factory engineered position and prevent low pockets to eliminate water collection and stagnation.
- 6. Constantemp® foam insulation** maintains water temperature, reduces noise and protects plumbing from vibration, sagging and assures proper drainage. Tested at normal room temperature, heat loss is reduced to less than two degrees over a two-hour period. This exclusive Trajet technology reduces tub vibration and sound to assure a quiet, satisfying, relaxing whirlpool experience.
- 7. Easy installation.** Trajet's unique foam insulation and fastening system anchors supply lines solidly in place to prevent damage and misalignment during installation.
- 8. Fire Retardant.** Trajet tubs meet or exceed all national consumer fire protection codes.
